

Group : เป็น...อะไรคะ?

Subject : Classify 4 Monitor Lizard Species in Thailand

1. **6610412002** Chalita lamleelaporn

Responsibilities

- Find images of the class: *Varanus salvator*
- Train and tune the model for EfficientNetV2B0
- Make slices for the presentation

2. **6610412003** Ranakorn Boonsuankergchai

Responsibilities

- Train and tune the model for ResNet50
- Do Grad-Cam analysis
- Make slices for the presentation

3. **6610422010** Tanwalai Yoongkieo

Responsibilities

- Find images of the class: *Varanus nebulosus*
- Train and tune the model for ResNet50
- Make slices for the presentation
- Present the project to the classroom

4. **6610422023** Nattawut Intanai

Responsibilities

- Find images of the class: *Varanus rudicollis*
- Train and tune the model for EfficientNetV2B0
- Make slices for the presentation

5. **6610422030** Patcharaporn Tuntino

Responsibilities

- Find images of the class: *Varanus dumerilii*
- Train and tune the model for VGG16
- Make slices for the presentation
